

## CS 4460 - P5 Contributions

### **Daisha B.**

- Dataset decision
- Design concepts and ideas
- Csv parsing
- Researched base code for circle/bubbles with varying radiuses
- Base code for linking circles/bubbles
- Base code for onClick and onHover functionality
- Implemented onHover functionality
- Implemented visualization legend/key
- Design document

### **Courtney R.**

- Dataset decision
- Design concepts and ideas
- Csv parsing
- Implemented circle/radius base code to fit our design
- Implemented circle color distribution based on number of movies
- Implemented linking of actors to costars
- Implemented onClick functionality
- Implemented onHover functionality during an onClick event
- Implemented actor filtering by year
